PLEASE READ BEFORE STARTING INSTALLATION

While MBRP Inc. has made every effort to ensure that all components of this kit are of superior quality and properly packaged, it is the installer's responsibility to ensure the following before starting:

- that ALL components shown above are present.
- that ALL mating components fit together.
- that there are no damaged components.
- that the kit you have purchased is appropriate for your year and model of vehicle.
- that the kit will not interfere with any modifications previously installed or planned.
- that you have read and understand these instructions.

If you have any questions or are uncertain about any aspect of the installation of this kit on your vehicle please contact your dealer before commencing installation.

2007-2009 Jeep JK Rack Extension RetroFit Kit

Note; you must have an MBRP Roof Rack installed to use this product.

Figure 1

Figure 2

Figure 3

1. This Retrofit Kit is only required to mount a **Rack Extension Kit #130934** to a **4dr Roof Rack #130717** that does not have the required mounting holes as shown. **See Figure 1**

2. The front crossbar of the roof rack requires a pair of $\frac{1}{2}$ " holes to be drilled to allow clearance for the rack extension mounting hardware. Before removing the rack, measure and mark 2 holes 49" center to center. As a reference, each hole should be $5 \frac{5}{8}$ " outward from the crossmember joint. **See Figure 2**

3. Remove the roof rack and drill the holes as described in step 2.

4. Slide the bands over the ends of the tubes and locate the threaded sleeve in the previously drilled hole. Be sure the band hardware faces rearward and secure.

5. Reinstall the roof rack assembly.

6. you are now ready to install your rack extension kit. **See Figure 3**

Congratulations! You are finished. Thank you for purchasing an *MBRP Inc.* Product
